

OXFORD HOUSE COLLEGE LONDON

English for Overseas teachers –Creative Methodology

In perioada 06-17 iunie 2011, am beneficiat de un grant Comenius in vederea participarii la o activitate de formare continua in cadrul programului de invatare pe tot parcursul vietii. Cursul s-a numit English for Overseas teachers –Creative Methodology, a fost organizat de Oxford House College din Londra si se adreseaza tuturor profesorilor europei care nu sunt vorbitori native de limba engleza .La activitatea de formare au participat profesori din Germania,Austria ,Finlanda, Turcia , Rusia, Franta, Lituania.

Am participat la activitati diverse care au urmarit aspecte de continut si de metodica predarii limbii engleze, dar am avut si posibilitatea de a asista la ore predate de profesorii de la Oxford House College.Astfel competentele si abilitatile dezvoltate au fost lingvistice, metodologice, de comunicare si adaptare, de lucru in echipa.

Cursul mi-a oferit de asemenea sansa de a cunoaste profesori din diverse sisteme de invatamant,

comparand astfel aspecte diverse ale procesului educativ din spatii culturale si geografice diferite. Cursul s-a desfasurat pe parcursul a 20 ore si principalele teme de discutie au fost :

- **Approaches to language teaching and learning:** Overview of the different approaches to language teaching, including 'silent way', 'suggestopedia' and 'total physical response'.
- **Task based learning:** complete overview of the tbl approach including sample materials and practice.
- **The Lexical Approach:** Implementing the approach with vocabulary games and activities, Vocabulary collocation and connotation.
- **Experimental practice:** new and interesting ways to teach grammar.
- **Checking understanding:** Contextualising using concept check questions and working with guided discovery worksheets.
- **Teaching Reading:** Activities and fresh ideas for teaching reading, Improving your learners' understanding of authentic English texts.
- **Teaching Writing:** Activities and fresh ideas for teaching writing; Strategies and models to develop your learners' informal and formal writing skills.
- **Teaching Speaking:** Activities and fresh ideas for teaching Speaking; Strategies and models to develop your learners' conversational skills.
- **Teaching Pronunciation:** Activities and fresh ideas for teaching pronunciation; Strategies and models to develop learners' pronunciation, including ideas for presenting the phonemic chart.
- **teaching listening:** Activities and fresh ideas for teaching listening, improving learner's understanding of authentic listening texts and tips on grading materials.

Participarea la acest curs mi-a oferit si posibilitatea sa-mi aprofundez cunostintele despre istoria ,cultura si civilizatia engleza . Londra reprezinta nu doar un centru al invatamantului de prestigiu,ci si o regiune turistica fermecatoare. Este cel mai important centru politic, financiar, cultural si artistic al Regatului Unit, si cel mai mare oras european.

Principalele puncte de interes din capitala Angliei sunt Big Ben,Westminster Abbey, Palatul Buckingham, Catedrala Sf. Paul si Turnul Londrei.

Recomand tuturor profesorilor, care vor sa se perfectioneze, sa-si depuna candidatura pentru a obtine o bursa de formare individuala, mai multe informatii gasiti accesand site-ul: www.anpcdefp.ro.
